

## The Mayor of Almussafes visits the factory of Ercros

The Mayor of Almussafes, Toni Gonzalez, visited last Monday the factory that Ercros has in the town and presented the Council new plans to promote the employment to the factory managers. Along with the mayor, visited the facilities of Ercros Elena Baldoví, Director of the Local Development Agency and head of Almussafes' Employment Promotion Plan.

Joan Miquel Capdevila, director of the factory, and Xelo Aranda, head of industrial relations, were responsible to show the mayor the factory and its production processes. During the visit, they made special mention of security systems and environmental management that Ercros applies in all its facilities.

Ercros factory in Almussafes has 105 employees, belongs to the intermediate chemicals division and is the world's largest producer of formaldehyde, a chemical used in the manufacture of furniture and paper i, pharmaceuticals and textiles industry.

The plant has certified its environmental management system according to ISO 14001: 2004; quality, according to the ISO 900: 2008, and the prevention, according to the OHSAS 1800: 2007.
