

## Students from the Technical University of Delft (Netherlands) visit the Ercros factory in Vila-seca II

A group of 13 PhD students in Chemical Engineering, specializing in product design at the Technical University of Delft (Netherlands), visited the Ercros factory in Vila-seca II.

The students are between 24 and 29 years old and are from Portugal, Venezuela, Taiwan, China, Italy, Egypt, Indonesia, Colombia and Mexico.

The head of operations of the factory, Gonzalo Quintilla, introduced the Ercros Group to the students and explained the activity carried out by the factory; later they made a guided visit to the production plants.
