

## Ercros participates in International Women's Day

Ercros has joined the celebration of International Women's Day through the making of a video recorded by the workers themselves. In this recording, the women who work in the company explain why they decided to dedicate themselves to the world of chemistry and what this career brings to their life, while their colleagues add touches about what it is like to work with women in a sector dominated by men.

The video is available at this link: <https://vimeo.com/520895270>
