

Ercros renews the sponsorship of CB Almussafes women's teams for the 2021-2022 season

Ercros has renewed the sponsorship of the female teams of the U9, U11 and U13 categories of the Almussafes Basketball Club for the 2021-2022 season. As part of the sponsorship agreement, Ercros has provided the equipment to the players, which has the company printed logo.

Ercros' sponsorship of these women's teams, dating from 2018, demonstrates the company's commitment to supporting grassroots women's sports and healthy lifestyles among youth; at the same time, it collaborates with a neighbouring entity, strongly rooted in the population, with which it shares the same values of effort, improvement and teamwork.

The Almussafes factory, which is part of Ercros' intermediate chemicals division, was founded in 1969, employs more than 100 people and is dedicated to the production of formaldehyde and resins, two products with countless applications, such as manufacture of furniture, parquet laminates or paintings.
