

Gathering of the trade unions of the Tarragona complex in solidarity with Ukraine

The trade union sections of the Ercros Tarragona complex gathered today for five minutes at the entrance to the Vila-seca I and Vila-seca II factories in solidarity with the Ukrainian people who are suffering from a war.

In an act promoted by the aforementioned trade union sections, and in agreement with the management of the complex, the workers have held a silent rally under the slogan "Peace, solidarity and democracy".

With this call, they wanted to show their rejection of any military action and their request for the cessation of the use of weapons and the withdrawal of Russian troops from Ukrainian territory.
