

## The CIT participates in the 8th. Walk around Tarragona against cancer

About thirty workers from the industrial complex of Tarragona (“CIT”) in Ercros, accompanied by their relatives, participated this Saturday in the 8th. Walk around Tarragona against cancer. The solidarity event has been organized by the hiking club Allibera Adrenalina and the Spanish Association against Cancer of Tarragona.

The march started at Parc Francolí and the participants could choose between two routes, one of 9 kilometres and the other of 14 kilometres.

The call for Ercros staff to participate in this sporting and solidarity initiative was made by the CIT medical service within the framework of the Ercros Healthy campaign.
