

Ercros supports technological innovation at the Expoebre fair

The Ercros factory in Tortosa has participated in the 78th edition of the Expoebre fair, which was held from May 1 to 5 in the capital of the Baix Ebre region. In this new edition, Ercros has sponsored the Ebretch space, dedicated to new technology projects that have allowed visitors to experience and learn about the latest developments in artificial intelligence, drones, sustainable technology, virtual reality, robotics, 3D printers and cybersecurity.

Expoebre is the multi-sector fair that turns Tortosa year after year into the meeting point for the industrial and service sectors of the Baix Ebre, Montsià, Terra Alta and Ribera d'Ebre regions.

The Tortosa factory belongs to the intermediate chemicals division of Ercros and is home to the R&D department of this division.
