

## The Ercros factory in Cerdanyola celebrates four years without accidents

Informative poster of the four years without accidents

The Ercros factory in Cerdanyola has reached four consecutive years without having accidents at work with sick leave, equivalent to 1,461 days.

This achievement reflects the commitment of the team, which has consolidated a culture of prevention based on responsible and collaborative attitudes, and has established, as a priority, the achievement of a safe work environment.

The Cerdanyola factory is certified with the ISO 45001 standard, which accredits the management of occupational health and safety, and has a healthy organization management system (Sigos) accredited by Aenor. This system, in addition to including aspects of prevention in people's health, also has an impact on the promotion of health and healthy lifestyle habits.
