

Ercros participates in the presentation of the Aranjuez industry table

Maricarmen Cruzado, director of the pharmaceuticals division of Ercros, has participated as a speaker in the round table held on the occasion of the presentation of the Industry Table, organized by the City Council of Aranjuez, in collaboration with the Chamber of Commerce of Madrid, within the Impulsa Aranjuez project.

The Industry Table was created with the aim of creating a space for dialogue, proposals and joint planning between the main agents of the sector, in order to promote local economic development.

During his speech, Cruzado underlined the potential of Aranjuez as an attractive city for young talent to establish themselves and grow professionally, as well as the importance of promoting a greater female presence in the industrial field.

The event was closed by the mayor of the town, who stressed the strategic importance of the industrial sector for the generation of quality employment in the region.
