

## **Ercros participates in the photographic exhibition '50 years of industrial evolution' organized by the Ministry of Industry**

The Undersecretary of Industry and Tourism during the inauguration of the exhibition

Ercros participates in the photographic exhibition '50 years of industrial evolution', organized by the Ministry of Industry and Tourism and the School of Industrial Organization (EOI), which covers five decades of progress in Spanish industry.

The company contributes to the exhibition with a photograph of its factory in Vila-seca II (Tarragona). The image is part of a visual journey through 50 years of innovation and industrial evolution, built from images provided by 24 companies representative of the Spanish productive sector.

The opening ceremony was chaired by the Undersecretary of Industry and Tourism, Pablo Garde, and the Director General of the EOI, Diego Crescente.

The exhibition can be visited until January 31, at the EOI headquarters in Madrid (Avenida Gregorio del Amo, 6), from Monday to Friday, from 10:00 a.m. to 7:00 p.m.

Barcelona, January 8, 2026
