

The director of the Ercros factory in Sabiñánigo participates in the “Pioneers” exhibition

Elena Simón, on the right of the image, at the opening of the exhibition

Elena Simón, director of the Ercros factory in Sabiñánigo, is participating in the photographic exhibition “Pioneers,” organized by the town council to commemorate March 8, International Women's Day. The mayor, Berta Fernández, and the councillor for Equality, Elena Buil, were present at the exhibition's opening.

The exhibition, which can be visited until March 14 at the Municipal Art Gallery, brings together leading women from the region who have paved the way in various professional, social, and cultural fields, such as Elena Simón, whose photograph is included in the exhibition.

With this visual and biographical journey, the exhibition pays tribute to all those women who have significantly contributed to the development and identity of Sabiñánigo.
