

Ercros participates in the Conference on tobacco prevention and control in El Camp de Tarragona and Terres de l'Ebre

Llorenç Saltó during his presentation

Ercros has participated in the Tobacco Prevention and Control Conference in the Camp de Tarragona and Les Terres de l'Ebre, which was held this Tuesday at the Ecoespai in Miami Platja (Mont-roig del Camp) with the aim of presenting the situation of smoking in the area, sharing experiences from different areas of intervention and reflecting on challenges and opportunities in this field.

The medical coordinator and head of health prevention at Ercros, Llorenç Saltó, was in charge of representing the company on this day. Saltó has presented the actions that are carried out from occupational health and has explained the evolution of the 20 years of existence of the Law on health measures against smoking.

Llorenç Saltó also shared with the attendees the campaigns carried out by the Ercros health prevention department, as well as the positive results achieved.
