

The Ercros factory in Sabiñánigo receives a visit from the Women for Health Association

The Ercros factory in Sabiñánigo recently hosted a visit from a group of members and guests of the Women for Health Association (MUSA) of Sabiñánigo, as part of the activities organized by the association to learn more about the industrial environment of the region.

The day included a presentation on the factory's operations and the Ercros Group, followed by a tour of the hydrogen peroxide and chlorine plants, accompanied by company technical staff.

The participants showed great interest in the industrial processes and expressed their gratitude for the opportunity to visit facilities closely linked to the history and social life of Sabiñánigo.
