

Ercros teams up in the Valenta Sugar Cup to support type 1 diabetes research

In the image Xelo Aranda, with the organizers of the tournament

Ercros has sponsored the Valenta Sugar Cup tournament, held from June 5 to 7 in Almussafes, a solidarity event aimed at raising funds for type 1 diabetes research and giving visibility to the challenges faced by children and young people living with this disease.

Organized by the DiabetesCERO Foundation, the Almussafes Diabetes Association and the town council, the tournament has brought together 50 women's grassroots football teams and about 800 players from different national clubs.

Xelo Aranda, head of Industrial Relations at the Almussafes factory, attended the event on behalf of Ercros to show the company's support for this cause.

With this collaboration, Ercros participates for the third consecutive year in this initiative and contributes to promoting type 1 diabetes research and raising awareness in society about the impact of this disease.
