BONDALTI | Ercros

BUSINESS MODEL

- The main activity of the Tarragona complex is the production of **chlorine, caustic soda and their derivatives** (sodium hypochlorite, synthesis hydrochloric acid and PVC).

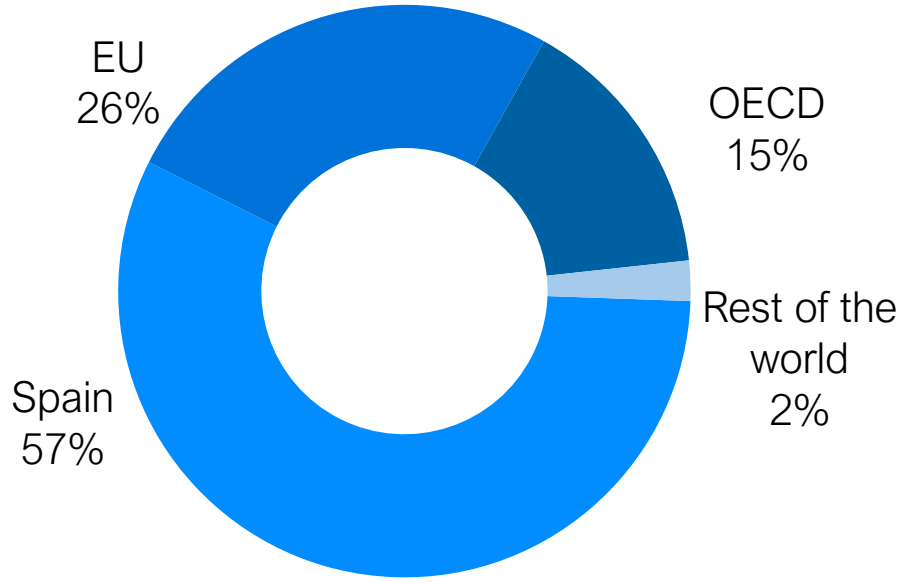

- The chlorine produced by Ercros is used in-house to make its derivatives and, in particular, PVC (more than 60% in recent years).

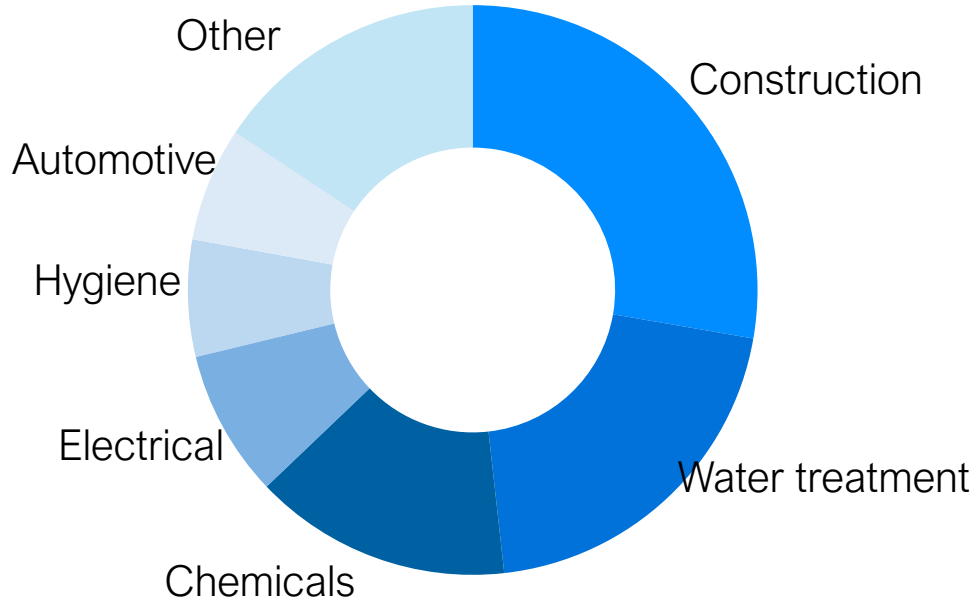

MARKETS AND SECTORS 2025

WHERE DO WE SELL?

WHICH SECTORS DO WE SELL TO?

BONDALTI | Ercros

Production process

RAW MATERIALS / ENERGY

PROCESS UNITS

FINAL PRODUCTS

Electricity

Sodium chloride

Vila-seca I

Chlorine, caustic soda and hydrogen

Market

Caustic soda (liquid and pearls)

Hydrochloric acid (synthesis)

Sodium hypochlorite

Hydrogen

Ethylene

Natural gas

Vila-seca II

EDC → VCM

Suspension PVC

PVC

Monzón

PVC compounds

EDC/VCM (external)

BONDALTI | Ercros

BONDALTI | Ercros

PRODUCTION AND FACILITIES

1 Mt/year

Production capacity

1
Chlor-alkali plant
(8 electrolysers)

1
Caustic soda
pearl plant

2
Hydrochloric
acid
plants

2
Sodium
hypochlorite
plants

Vila-seca II plant

BONDALTI | Ercros

PRODUCTION AND FACILITIES

749,000 t/year
Production capacity

1
EDC plant
(4 reactors)

1
VCM plant
(2 crackers)

1
PVC plant
(4 reactors)

PVC

APPLICATIONS

- Pipes
- Window and door profiles
- Cables
- Films
- Vinyl flooring
- Insulation
- Compounds

MARKETS

- Spain and exports, mainly to EU countries
- A small part goes to the Monzón plant to make compounds.

BONDALTI | Ercros

ACTIVITY
OF THE TARRAGONA PLANT

The Tarragona plant provides services to third parties

General services

- Logistics
- Dispatch
- Prevention
- Gatehouse
- Security

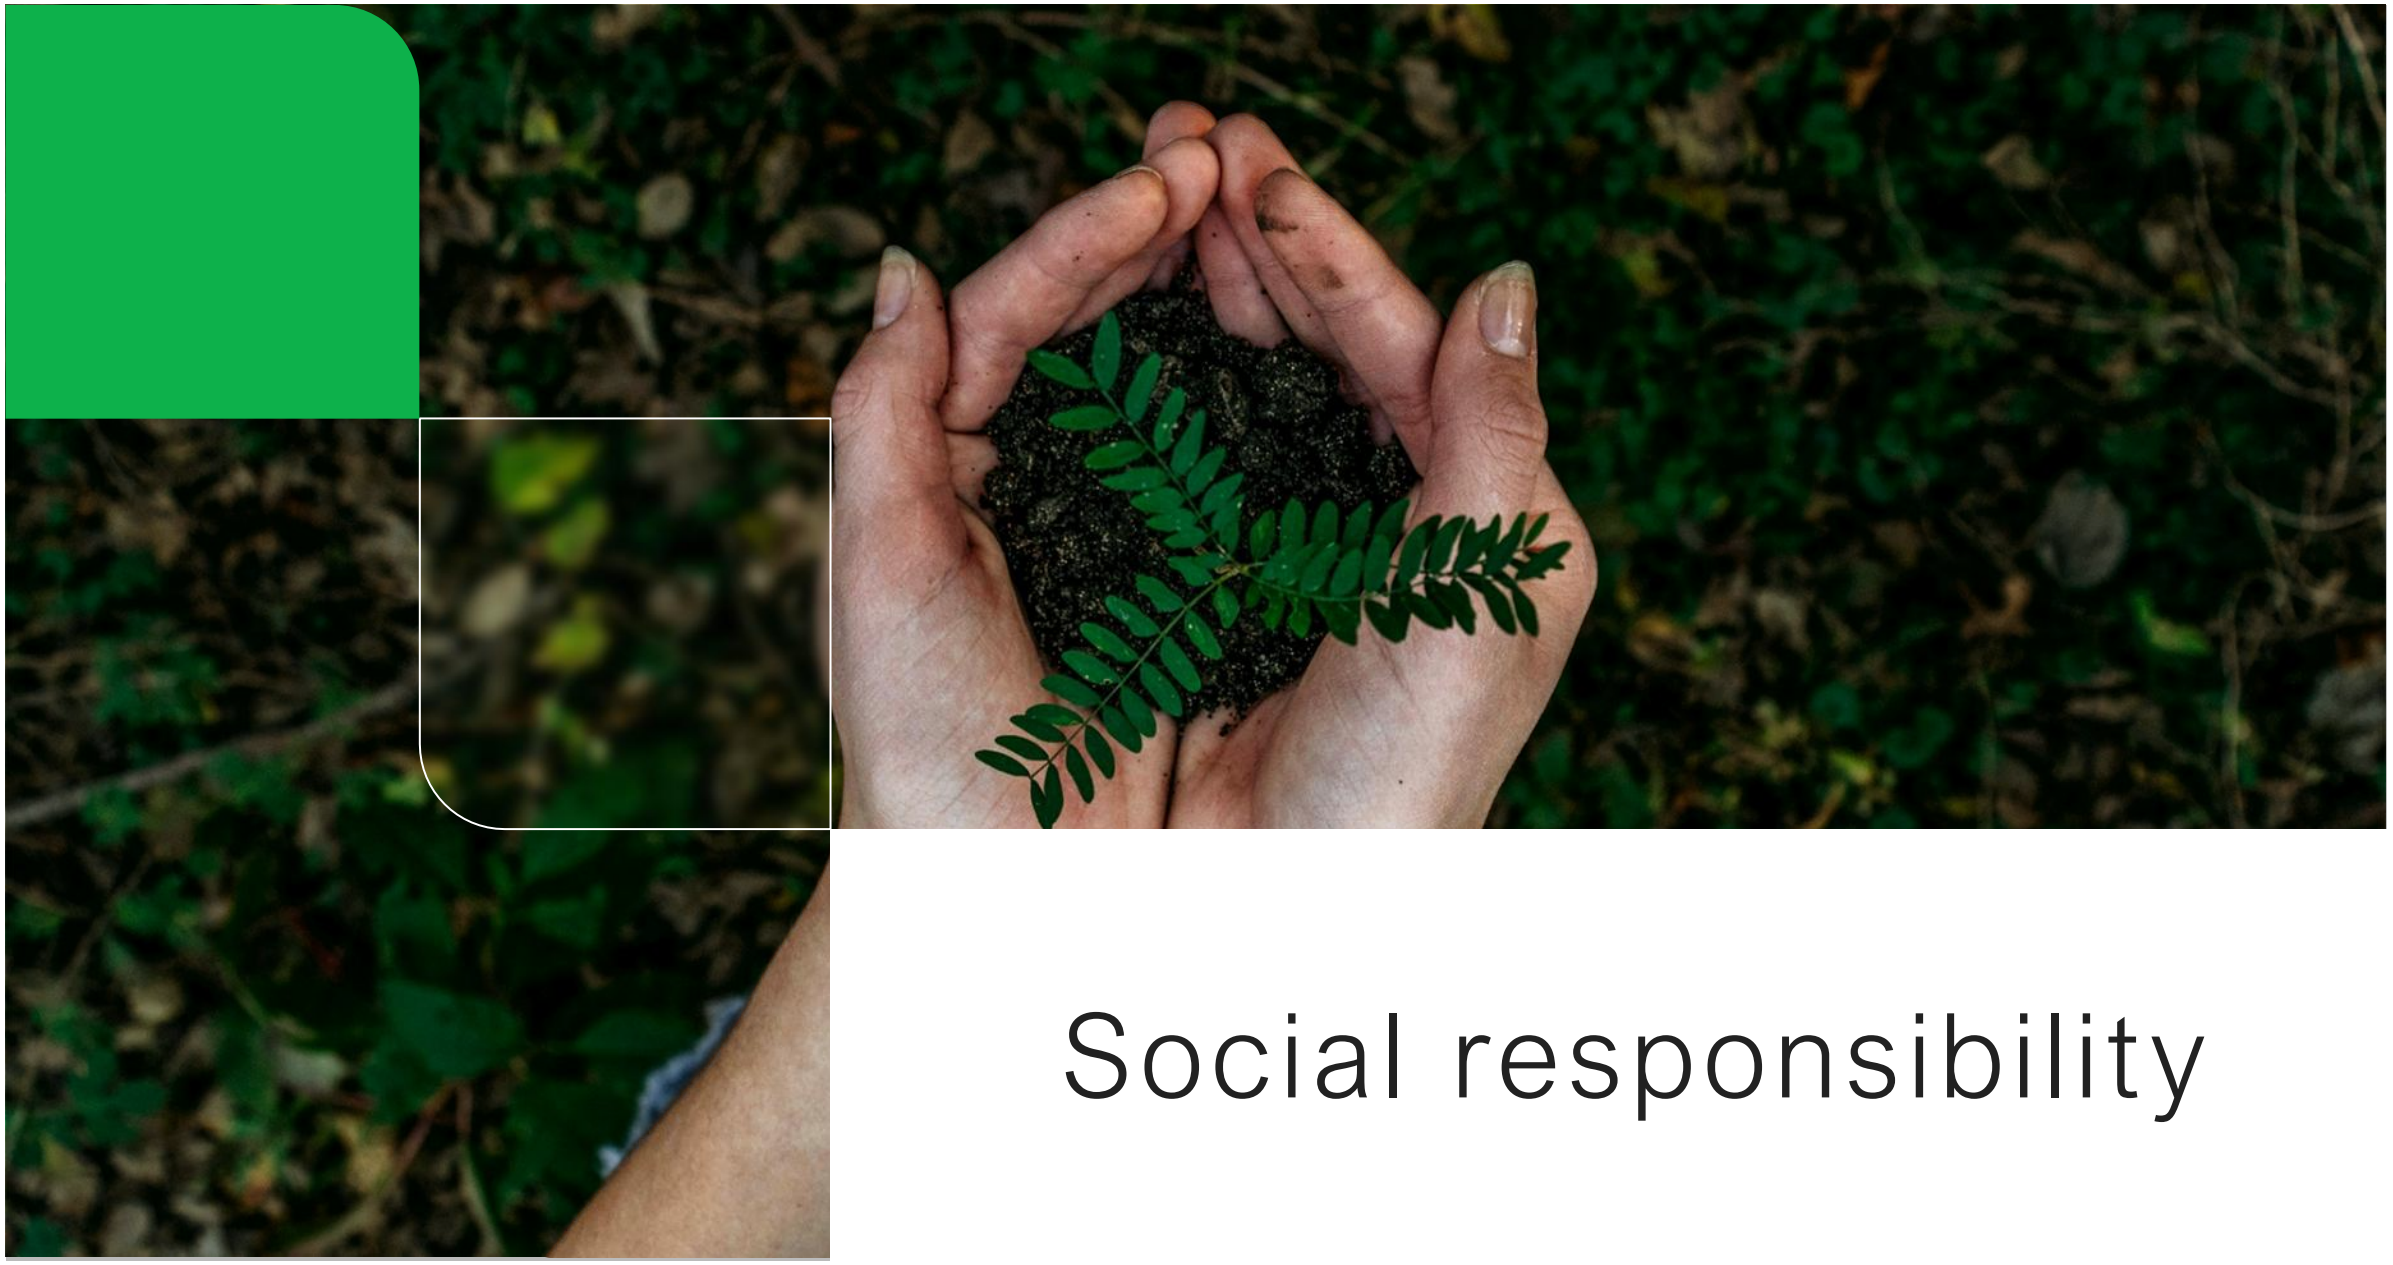

Auxiliary services

- Steam
- Air
- Cooling and demineralised water
- Wastewater treatment

Customers

- Andrés Pintaluba
- Sekisui
- TDE

Social responsibility

BONDALTI | Ercros

SAFETY AND PREVENTION

- OHS: We have a participatory occupational health and safety (OHS) system, structured around three Health and Safety Committees that hold 12 meetings a year. This model allows workers and the company to collaborate actively in safety management, fostering participation, dialogue and continuous improvement.

- Industrial Safety: Our plants are subject to the SEVESO Directive, the European reference standard for chemical risk. They have systems and safeguards to reduce the likelihood and consequences of potential product releases, as well as approved Self-Protection Plans that are regularly tested.

ENVIRONMENT
CERTIFICATIONS

ISO 14001
Reference standard for environmental management systems

ISO 14064
Standard for verification of CO_2 emissions

ISO 50001
Reference standard for energy management systems

EMAS
European register of environmental management systems

ISCC PLUS
Backs the origin of the use of renewable energy in the production of chlorine derivatives

ECVM Charter
Recognises sustainable practices in the production of PVC and VCM

VinylPlus Supplier
Benchmark in transparency in sustainable PVC production

OCS
Certifies control of accidental losses of microplastics

IPES
Recognises Spanish plastics companies working towards sustainability

BONDALTI | Ercros

ENVIRONMENT

VOLUNTARY PROGRAMMES

Green Hydrogen Platform

South Catalonia stakeholder group led by Rovira i Virgili University, aiming to deploy green hydrogen

RE4Industry

EU project for 100% renewable energy for electro-intensive industries

Climate Action of the Generalitat de Catalunya

Commitment to achieving CO_2 emissions neutrality by 2050

Carbon Disclosure Project (CDP):

Organisation that assesses how member companies perform on the climate emergency. In 2025, Ercros was rated B (Management) on a scale from A to E

SAFETY, QUALITY, PRODUCTION AND DISTRIBUTION

CERTIFICATIONS

ISO 45001

Standard accrediting health and safety management

SIGOS

Standard accrediting the implementation of a healthy organisation management system (Sigos)

ISO 9001

Standard accrediting quality

ISO 27001

Standard certifying the protection system for data generated by Ercros and its stakeholders

ISO 42001

Standard certifying the artificial intelligence management system

OEA

Certificate from the Spanish Tax Agency recognising Ercros as an authorised economic operator

BONDALTI | Ercros

GOVERNANCE & CSR*

CERTIFICATIONS AND VOLUNTARY PROGRAMMES

IBGC

Certificate of compliance with the corporate good governance index

UNE 19601

Accreditation of the criminal compliance management system

EcoVadis

CSR rating agency. Ercros scored 85/100 and is in the Gold category

Responsible care

Worldwide good-practice programme promoted by the chemical sector. Ercros scored 85/100 in the self-assessment questionnaire

Global Compact

UN-backed programme containing 10 principles of action

ESG Lighthouse rating

Promoted by the Spanish Institute of Analysts, assesses compliance with ESG criteria. Ercros scored 87/100
